AN EXTRAORDINARY CASE which conclusively proves that 'Truth is stranger than Fiction."

The following letter, narrating one of the most remarka ble events in the annals of Medical Science, is from the Rev. Dr. Landis, a Clergyman of New Jersey, of distinguished attainments and ex alted reputation:—
Sidney, New Jersey, July 12, 1848.
Dr. A. H. Christie—Dear Sir: You wish to know of

me what has been the result in my own case, of the application of THE GALVANIC BELT AND NECKLACE My reply is as follows: For about twenty years I had been suffering from Dyspepsia. Every year the symptoms became werse, nor could I obtain permanent relief from any course of med-ical treatment whatever. My physicians were skilful and excellent men; but here their prescriptions failed. About fourteen years since, in consequence of frequent ex-posure to the weather, in the discharge of my pastoral duties, I became subject to a severe Chronic Rheumatism, which for year after year, caused me indescribable anguish. In the severer paroxysms, the skill of my physicians sometimes afforded me great relief; but this relief was only temporary. Farther: in the winter of '45 and '46, 'in consequence of preaching a great deal in my own and various other churches in this region, I was attacked by the Bronchitis, which soon became so severe as to require an immediate suspension of my pastoral labors.

My nervous system was now thoroughly prostrated, and
as my Bronchitis became worse, so also did my Dyspepsia
and Rheumatic affection—thus evincing that these dis-

orders were connected with each other through the medium of the Nervous System. My sufferings were indeed severe, and I had no prospect other than being entirely laid aside from the discharge of those duties, and the performance of those labors in which my soul has ever found the highest of her joys.

But reasoning from effect to cause, I concluded that the Nervous System must be reached, before any hope could be indulged of my obtaining relief from these most distressing maladies. In the whole pharmacoporia there distressing manages.
